PREFACE

"Survey of Libraries Part II: Academic Libraries" is an annual publication of results of surveys covering university and college libraries, centralized school libraries, libraries in technical institutes, teachers' colleges and provincial trade schools as well as library school graduates in 1968.

It provides information on enrolment, book-stock, staff, salaries and current operating expenditures during the academic year 1966-67 for libraries in 77 universities and colleges with enrolment of 100 or more, technical institutes and trade schools, as well as 3,271 public elementary and secondary schools with centralized libraries.

Enquiries, comments and suggestions concerning this report are invited and should be addressed to the Acting Director, Education Division, Dominion Bureau of Statistics.

WALTER E. DUFFETT,
Dominion Statistician.

PRÉFACE

Le résultat des enquêtes visant les bibliothèques des universités et des collèges, les bibliothèques scolaires centralisées, les bibliothèques des instituts de technologie, écoles normales et des écoles des métiers de province, ainsi que les diplômés de 1968 en bibliothéconomie, fait l'objet d'une publication annuelle intitulée "Enquête sur les bibliothèques, Partie II: Bibliothèques scolaires."

Cette publication fournit des renseignements sur l'effectif scolaire inscrit, le fonds de livres, le personnel, les traitements et les dépenses courantes de fonctionnement, en 1966-67, à propos des bibliothèques de 77 universités et collèges comptant chacun 100 étudiants inscrits ou plus, des instituts de technologie et des écoles de métiers, ainsi que des bibliothèques centralisées de 3,271 écoles élémentaires et secondaires publiques.

Les utilisateurs du présent rapport sont priés d'adresser leurs demandes, leurs appréciations et leurs propositions au directeur par intérim de la Division de l'éducation, Bureau fédéral de la statistique.

WALTER E. DUFFETT,
Statisticien fédéral.

DEFINITIONS

University and College Libraries

Academic Year: The summer session plus the following winter session.

Book: A unit of publication, either bibliographically independent or volumes in a series published under the same title, consisting of leaves, sheets, or signatures sewn or otherwise bound together, covered or uncovered. Bound volumes of periodicals and newspapers are not considered books. A.L.A.

Government document: Any publication in book, serial or nonbook form bearing a government imprint, e.g., the publications of federal, provincial, local and foreign governments and of world organizations such as United Nations, European Common Market, etc. A.L.A.

Interlibrary loans: Items lent between independent libraries. Do not include items borrowed or lent among branches of the same library system, or photocopies supplied.

Microform: Any library material which has been photographically reduced in size for storage and protection purposes, and which must be read with the help of enlarging instruments, e.g., microfilm, microcard, microfiche; also called Microcopy and Microtext. A.L.A.

Periodical: A serial publication which constitutes one issue in a continuous series under the same title, usually published at regular intervals over an indefinite period, individual issues in the series being numbered consecutively or each issue being dated. A.L.A.

Professional librarian: A librarian with a university degree and at least one year of additional professional library training, e.g., B.A., B.L.S.

Centralized School Libraries

Audio-visual Materials: Nonbook library materials, such as recordings, transparencies, tapes, slides, films, and filmstrips, which require the use of special equipment to be seen or heard. A.L.A.

Book: A non-periodical publication containing 49 or more pages, not counting the covers.

Centralized Library: A library which is administered as a unit, located in one place, at least as large as a classroom, and provides books and other library materials for the use of all the pupils and teachers of the school; and is used as a library at least 90% of the time. Do not include classroom collections, teachers' collections, book collections administered by the public library authority and located in the school.

Periodical: A publication appearing under the same title, at more or less regular intervals, such as a magazine or newspaper. It may be catalogued with books or separately.

Professional School Librarian: One who has (a) a teaching certificate, license or permit and (b) a university degree in library science.

Note: The stock should be counted in terms of the number of volumes, not titles. Count only those volumes which are available for loan to pupils. In general, unbound publications should be counted as equivalent to the number of volumes they would represent if bound.

DÉFINITIONS

Bibliothèques des universités et des collèges

Année scolaire: la session d'été et la session d'hiver qui suit.

Bibliothécaire professionnel: Un bibliothécaire qui a obtenu un grade universitaire et a fait au moins une autre année d'études en bibliothéconomie, par ex.: B.A., B.B.

Livre: Une unité de publication, soit bibliographiquement indépendante ou un volume faisant partie d'une collection publiée sous le même titre, et consistant en feuillets, ou cahiers cousus ou autrement reliés ensemble avec ou sans couverture. Les volumes de périodiques et de journaux reliés ne sont pas considérés comme des livres. A.L.A.

Microforme: Toute documentation réduite photographiquement en dimension à des fins d'entreposage et de protection et qui doit être lue au moyen d'instruments grossissants, e.g. les microfilms, les microcartes, les microfiches; aussi appelée microcopie et microtexte. A.L.A.

Périodique: Une publication en série constituant une livraison en une série continue sous le même titre, habituellement publiée à intervalles réguliers au cours d'une période indéfinie, les livraisons particulières de la série étant numérotées l'une après l'autre ou chaque livraison étant datée. A.L.A.

Prêt entre bibliothèques: Un accord coopératif entre bibliothèques en vertu duquel une bibliothèque peut emprunter de la documentation d'une autre qui ne fait pas partie intégrante d'un même réseau. A.L.A.

Publication gouvernementale: Toute publication, soit livre, série ou autre, portant l'empreinte d'un gouvernement, e.g. les publications des gouvernements fédéral, provinciaux, locaux et étrangers et d'organismes mondiaux tels que les Nations-Unies, le Marché commun européen, etc. A.L.A.

Bibliothèques scolaires centralisées

Bibliothèque centralisée: Bibliothèque administrée comme un tout, située en un seul endroit, au moins aussi grande qu'une salle de classe, qui met des livres et autres imprimés à la disposition de tous les élèves et instituteurs et qui est utilisée comme bibliothèque au moins 90 p. 100 du temps. Ne pas inclure les collections de classe, les bibliothèques des professeurs, ni les collections administrées par une bibliothèque publique et situées dans l'école.

Bibliothécaire scolaire professionnel: Personne qui possède un baccalauréat ès arts et un baccalauréat en bibliothéconomie d'une école universitaire.

Livre: Publication non périodique comptant 49 pages ou plus, sans les couvertures.

Matériel audio-visuel: Matériel (non les livres) de la bibliothèque, tel que les enregistrements, rubans, diapositives, films et films fixes, qui nécessite l'emploi d'un équipement spécial pour être vu ou entendu. A.L.A.

Périodique: Publication paraissant sous le même titre et à intervalles plus ou moins réguliers, comme la revue et le journal. Un périodique peut être catalogué avec les livres ou séparément.

Note: Le stock doit être compté d'après le nombre de livres, et non d'après celui des titres. Ne compter que les livres accessibles aux élèves. En général, les publications non reliées doivent être comptées d'après leur équivalent en volumes si elles étaient reliées.

INTRODUCTION

Information on university libraries in Canada has been collected since 1921, published until 1929 in "Survey of Education" and since then in "Survey of Libraries". Libraries in technical institutes, trade schools, and teachers' colleges were surveyed for the first time in 1963-64.

School libraries in centres of 10,000 and over have been included in this series since 1958-59 and in this report coverage has been broadened to include school libraries in smaller centres. Library school graduates entering the library profession have been surveyed since 1960. An occasional publication "Survey of Libraries, Part III: Library Education, 1960-65", brings together the data from six surveys for comparative purposes. A companion volume to this report, "Survey of Libraries, Part I: Public Libraries, 1967" will be issued in the spring of 1969.

The co-operation of the librarians concerned, officials of the provincial departments of education and the directors of the library schools at the universities of McGill, Montreal, Ottawa, Toronto and British Columbia is gratefully acknowledged.

L'enquête sur les bibliothèques des universités canadiennes a été instituée en 1921 et, jusqu'en 1929, les résultats ont été publiés dans la publication intitulée "Relevé de l'enseignement et, ensuite, dans Relevé des bibliothèques." C'est en 1963-64 que les instituts de technologie, les écoles de métiers et les écoles normales ont été ajoutées à l'enquête.

En 1958-59, le champ d'enquête s'est étendu aux bibliothèques scolaires des villes de 10,000 habitants et plus. Dans le présent rapport le champ a été élargi pour inclure des bibliothèques scolaires de centres de moins de 10,000 habitants. Depuis 1960 l'enquête inclut les diplômés en bibliothéconomie, qui débutent dans la carrière. La publication "Relevé des bibliothèques, Partie III: La formation professionnelle, 1960-65," qui paraît de temps à autre, réunit pour fins de comparaison les statistiques de six enquêtes. Le complément du présent rapport, intitulé "Enquête sur les bibliothèques, Partie I: Bibliothèques publiques, 1967," paraîtra au printemps 1969.

Nous remercions de leur précieuse collaboration les bibliothécaires qui ont répondu à l'enquête, les fonctionnaires des ministères de l'Éducation et les directeurs des écoles de bibliothéconomie de l'Université McGill et des Universités de Montréal, d'Ottawa, de Toronto et de la Colombie-Britannique.

SECTION I

National Services to Academic
Libraries

Federal Government

The year 1966-67 was specially memorable because the New National Library and Archives Building was completed and formally opened by the Prime Minister of Canada.

The National Library continued to provide three essential services to libraries in Canada, the compilation of "Canadiana", the maintenance and servicing of the National Union Catalogue and the expansion and cataloguing of the book collection.

"Canadiana" is a national bibliography published monthly, that describes in detail all publications published in Canada, or relating to Canada, that come to the notice of the National Library. Beginning with the issue dated January, 1967, a number of changes were made in Canadiana which should increase its usefulness.

"Canadiana" is used by other libraries as a source of cataloguing information and several changes have been made to increase its usefulness in this respect. The National Union Catalogue, listing the holdings of many important library collections in Canada, is used extensively by university and other libraries for the location of interlibrary loan material. Telex was installed in the National Library at the beginning of 1964 and it has since become a major factor in the information services provided by the National Library and the National Science Library.

During the last year a number of Canadian libraries were equipped with telex, among those being the library at Laval University and Mills Memorial Library, McMaster University.

Reclassification from the Dewey Decimal System to that of the Library of Congress Classification Scheme was reported by eight of the libraries and two universities reported receiving Canada Council grants amounting to \$38,000.

National Library Associations

The Canadian Library Association with headquarters in Ottawa is a voluntary organization of 3,000 librarians, trustees, libraries, publishers, library equipment firms and friends of libraries.

SECTION I

Services nationaux aux bibliothèques
scolaires

Gouvernement fédéral

L'année 1966-67 a été particulièrement marquée par l'inauguration officielle du nouvel édifice de la Bibliothèque nationale et des Archives publiques par le premier ministre du Canada.

La Bibliothèque nationale continue de fournir aux bibliothèques canadiennes trois services essentiels: la compilation de "Canadiana", la tenue à jour et le service du Catalogue collectif national et la transmission des renseignements qu'il renferme, ainsi que l'expansion de la collection et la préparation des catalogues.

"Canadiana" est un répertoire mensuel de tous les ouvrages, publiés au Canada ou ayant trait au pays, dont la Bibliothèque nationale a connaissance. A compter de la livraison de janvier 1967, on y a apporté certaines améliorations qui devraient accroître son utilité.

Les bibliothèques trouvent dans "Canadiana" les renseignements dont elles ont besoin pour l'établissement des catalogues et les modifications effectuées visent à accroître son utilité à cet égard. Toutes les bibliothèques font aussi un usage considérable du Catalogue collectif national dans lequel sont répertoriées un grand nombre de collections importantes canadiennes, afin de localiser les ouvrages qu'elles peuvent emprunter à d'autres bibliothèques. La Bibliothèque nationale possède depuis le début de 1964 un service de Telex qui constitue l'un des outils principaux du service d'information de la Bibliothèque nationale et de la Bibliothèque scientifique nationale.

Au cours de 1966-67, un certain nombre de bibliothèques, dont celle de l'Université Laval et la *Mills Memorial Library* de l'Université McMaster, ont été dotées des services de Telex.

Huit bibliothèques signalent avoir adopté le Système de classification de la Bibliothèque du Congrès, à la place de la Classification décimale Dewey et deux universités déclarent avoir reçu du Conseil des Arts des subventions dont le total atteint \$38,000.

Les associations nationales de bibliothèques

L'Association canadienne des bibliothèques, dont le siège social est à Ottawa, est une organisation bénévole groupant 3,000 bibliothécaires, administrateurs, bibliothèques, éditeurs, entreprises de matériel de bibliothèque et amis des bibliothèques.

The Association reports its services to be "The establishing of standards of service, support, educational qualifications, and welfare for libraries and library personnel, and the promotion of the adoption of such standards in libraries of all kinds.

It safeguards the professional status of librarians through accepting the American Library Association's international accreditation of library schools. It provides leadership in a nationwide program for recruiting competent personnel for professional careers in librarianship. It promotes popular understanding and public acceptance of the value of library service and librarianship.

Its liaison with federal agencies benefits libraries in many ways. An outstanding example has been its success in the promotion of the need for a National Library."

L'Association canadienne des bibliothécaires de langue française (A.C.B.L.F.) (The Canadian Association of French Language Librarians) with its head office in Montreal includes in its membership librarians and others who are interested in libraries.

A.C.B.L.F. through its permanent and special committee is actively concerned with all questions related to the profession of librarian. Further, its special sections are interested in all which concerns the different categories of libraries.

The Association holds an annual convention and the special sections annually organize study periods on current subjects related to librarians and libraries.

Library Education

In 1966-67 Canada had five professional library schools—at McGill University and at the universities of Montreal, Ottawa, Toronto and British Columbia. Of these five, McGill, Ottawa and Toronto offer courses leading to a Master of Library Science degree. The basic qualifications for the professional librarian is a Bachelor's degree in Arts or Science plus one full year of library training leading to B.L.S. at one of the five library schools.

A total of 452 graduated from the library schools in 1968 of whom 64 had obtained a Master of Library Science degree.

Information on library education is available from the institutions or government departments concerned. The Canadian Library Association publishes a complete list of scholarships and awards for study in this field.

L'Association se donne pour objectif "l'établissement de normes de service, de soutien, de compétence professionnelle et de bien-être pour les bibliothèques et leur personnel, ainsi que la généralisation de ces normes dans les bibliothèques de tous genres.

Elle protège le statut professionnel des bibliothécaires en acceptant l'agrément international des facultés de bibliothéconomie donné par l'*American Library Association*. Elle favorise, dans le cadre d'un programme d'envergure nationale, le recrutement d'un personnel compétent désireux de faire carrière en bibliothéconomie. Elle s'efforce de faire comprendre et de faire accepter la valeur des services des bibliothèques et le rôle des bibliothécaires.

Ses rapports avec les organismes fédéraux sont tout à l'avantage des bibliothèques. Une de ses réussites les plus marquantes a été sa campagne en faveur d'une bibliothèque nationale."

L'Association canadienne des bibliothécaires de langue française, (A.C.B.L.F.) dont le siège social est à Montréal, groupe des bibliothécaires et autres personnes qui s'intéressent aux bibliothèques.

L'A.C.B.L.F., par ses comités permanents et spéciaux s'occupe activement de toutes les questions touchant la profession de bibliothécaire. De plus, ses sections spécialisées s'intéressent à tout ce qui touche les différentes catégories de bibliothèques.

L'Association tient un congrès annuel et ses sections spécialisées organisent à chaque année des journées d'études sur des sujets d'actualité touchant les bibliothécaires et les bibliothèques.

Formation professionnelle

En 1966-67, le Canada comptait cinq écoles professionnelles de bibliothéconomie, soit celles de l'Université McGill et des Universités de Montréal, d'Ottawa, de Toronto et de la Colombie-Britannique. Trois d'entre elles, celles de l'Université McGill, d'Ottawa, de Toronto, donnent des cours sanctionnés par la maîtrise en bibliothéconomie. Pour devenir bibliothécaire spécialisé il faut avoir obtenu un baccalauréat en Arts ou en Sciences et accompli une année complète de formation sanctionnée par baccalauréat en bibliothéconomie dans l'une de ces cinq écoles.

En 1968, il est sorti des écoles de bibliothéconomie 452 diplômés dont 64 ont obtenu une maîtrise.

On peut se procurer des renseignements sur la formation professionnelle en s'adressant aux universités ou aux ministères de l'Éducation des provinces où elles se trouvent. L'Association canadienne des bibliothèques publie la liste complète des bourses d'études et des subventions accordées à ceux qui désirent faire des études en bibliothéconomie.

SECTION II

University and College Libraries

In 1966-67, 77 institutions, each with full-time enrolments of 100 or more, reported separately organized academic libraries. Erindale and Scarborough Colleges reported bookstock but no student enrolment and were not used in calculating per student figures.

The libraries at Prince of Wales College, Charlottetown, and the University of Guelph, which were undergoing reorganization at the time of the 1965-66 survey, have now completed this process and are included in the present survey. Statistics for the library at Collège Sainte-Marie, Montreal, are published for the first time in this survey.

Mount Saint Vincent University reported the opening of a special collection room this year as the University centennial project, to house a special collection of books by and about women. This is intended to include all types of factual material on various aspects of women in the world.

Since July 1, 1966, the Manitoba Law School has been an integral part of the University of Manitoba and its Library a part of the University library system. Thus statistics for this library are included in the main library report. United College became the University of Winnipeg, no longer affiliated with the University of Manitoba, July 1, 1967, and now appears as the University of Winnipeg Library in the present survey.

University of British Columbia library reported having received a gift of \$2,000,000 from the Mr. and Mrs. P.A. Woodward Foundation for the expansion of the Woodward Biomedical Library.

Stock

The total bookstock in 1966-67 amounted to 13,857,933 compared with 12,071,671 in 1965-66. The number of volumes per student increased from 59.0 in 1965-66 to 60.1 in 1966-67. The number of university libraries which reported microtext and audio-visual materials and equipment was 62 compared with 60 in 1965-66. There were substantial increases in stocks of films, filmstrips, slides, transparencies and sound recordings as well as equipment for the use of these materials.

Use

Users of university libraries in 1966-67 included 217,098 full-time employees and students and 296,694 part-time employees and students (including those enrolled in both credit and non-credit study). These figures indicate an increase of 9.3 p.c. in the total number of users.

SECTION II

Bibliothèques des universités et des collèges

En 1966-67, 77 établissements, ayant chacun un effectif inscrit de 100 élèves ou plus à plein temps, ont déclaré posséder des bibliothèques scolaires autonomes. *Erindale College et Scarborough College* ont déclaré détenir un fonds de livres mais ne pas avoir d'étudiants inscrits. Par conséquent, il n'en a pas été tenu compte pour le calcul des moyennes par étudiant.

Les bibliothèques du *Prince of Wales College* de Charlottetown et de l'Université de Guelph, qui étaient en voie de réorganisation au moment de l'enquête de 1965-66, ont maintenant terminé ce travail et figurent à la présente enquête, de même que la bibliothèque du Collège Sainte-Marie de Montréal dont les chiffres figurent pour la première fois.

La *Mount Saint Vincent University* annonce qu'à l'occasion du Centenaire elle a inauguré une salle particulière, qui abritera une collection spéciale de livres écrits par des femmes, sur la femme. Cette salle groupera des ouvrages documentaires de tous genres dans lesquels sont exposées les diverses activités de la femme dans le monde.

Depuis le 1er juillet 1966, la *Manitoba Law School* fait partie de l'Université du Manitoba et sa bibliothèque a été intégrée à celle de l'université. Les statistiques relatives à cette bibliothèque sont intégrées à celles de la bibliothèque de l'université. Le 1er juillet 1967 le *United College* est devenu l'Université de Winnipeg après s'être dissocié de l'Université du Manitoba. Sa bibliothèque figure sous le nouveau nom dans la présente enquête.

La Fondation de M. et Mme. P.A. Woodward a fait don à l'Université de la Colombie-Britannique d'une somme de deux millions pour l'expansion de la *Woodward Biomedical Library*.

Fonds

Le fonds comptait 13,857,933 livres en 1966-67 contre 12,071,671 en 1965-66. Le nombre de volumes par étudiant est passé de 59.0 en 1965-66 à 60.1 en 1966-67. Le nombre d'universités dotées de microtextes et de matériel audio-visuel, qui était de 60 en 1965-66, est passé à 62. Le fonds de films, de films fixes, de diapositives et d'enregistrements sonores ainsi que le nombre d'appareils servant à leur exploitation ont augmenté sensiblement.

Usagers

Parmi les usagers des bibliothèques universitaires en 1966-67 on comptait 217,098 employés et étudiants à plein temps et 296,694 employés et étudiants à temps partiel (y compris les étudiants inscrits à la fois aux cours comportant des crédits et aux autres cours). Les chiffres ci-devant mentionnés montrent que le nombre total d'usagers s'est accru de 9.3 p. 100 par rapport à 1965-66.

Finance

Expenditures for salaries and wages of library staff accounted for 47.4 p.c. of the total operating expenditure of \$37,806,459. Expenditures on library materials, binding and repair, amounted to \$17,376,535 or 45.9 p.c. of the total.

The main source of funds for the libraries continued to be university appropriations. Funds from other sources totalled \$2,226,523. The approximate value of gifts was \$391,265 reported by 35 libraries.

Staff

The total staff of the libraries in 1966-67 was 4,134 of whom 1,016 or 24.6 p.c. were professionals. The non-professional staff excluded maintenance personnel but included clerical and similar persons who perform under supervision duties requiring special skills and experience, but not a knowledge of the theory of library work.

The median salary of professional librarians rose from \$6,540 in 1965-66 to \$7,170 in 1966-67. The median starting salary for inexperienced professional librarians was \$6,000 compared with \$5,600 in 1965-66. Table 10 shows salaries of faculty and library staff in 18 of the larger institutions. The median salary of all faculty members was \$11,175 compared with \$6,982 for all professional librarians.

Technical Services

A question on technical services was included to elicit information on the cost and volume of production in this area of library production. Technical services include everything that is done to make a book available for the student's use—ordering, purchasing, cataloguing, classification, typing and filing cards and physical preparation. The handling of recataloguing and withdrawals was also considered part of technical services. The question asked for the number of full-time or equivalent staff and is defined in the footnote to table 11. The total number engaged in these operations was 1,716 in the 72 libraries which reported.

Finances

Les traitements et salaires du personnel des bibliothèques ont absorbé 47.4 p. 100 des dépenses globales de fonctionnement qui s'élevaient à \$37,806,459. Les dépenses en matériel, en reliure et en réparation ont atteint \$17,376,535, soit 45.9 p. 100 du total.

Les universités elles-mêmes ont continué d'être les principaux bailleurs de fonds. Les contributions provenant d'autres sources se sont élevées à \$2,226,523. La valeur approximative des dons déclarés par 35 bibliothèques était de \$391,265.

Personnel

En 1966-67, le personnel des bibliothèques s'élevait à 4,134 personnes dont 1,016 (24.6 p. 100) spécialistes. Dans le personnel non spécialisé on n'a pas compté les préposés à l'entretien mais on a inclus les commis de bureau et les employés assimilés qui exécutent, sous surveillance, des travaux nécessitant une adresse et une expérience particulières, mais non une connaissance théorique de la bibliothéconomie.

Le traitement médian des bibliothécaires spécialisés est passé de \$6,540 en 1965-66 à \$7,170 en 1966-67. Le traitement médian des bibliothécaires professionnels débutants qui était de \$5,600 en 1965-66 est passé à \$6,000. Le Tableau 10 montre le traitement des professeurs et celui des bibliothécaires de 18 des plus grands établissements. Le traitement médian des professeurs était de \$11,175 contre \$6,982 pour l'ensemble des bibliothécaires spécialisés.

Services techniques

On avait ajouté au questionnaire une question sur le coût et le volume des services techniques. Par services techniques on entend l'ensemble des opérations nécessaires avant qu'un livre puisse être mis à la disposition de l'étudiant, c'est-à-dire: la commande, l'achat, l'inscription au catalogue, la classification, la transcription et le classement des fiches et la préparation matérielle. Les services techniques comprennent aussi les remaniements de catalogue et les retraits de livres. La question portait sur le nombre d'employés à plein temps ou l'équivalent et elle est définie dans le renvoi au Tableau 11. Le nombre total d'employés dans les services techniques était de 1,716 pour les 72 bibliothèques déclarantes.

¹ 25% of part-time credit course enrolment is counted as full-time student enrolment and added to full-time enrolment, except in the case of Sir George Williams University, where 40% is used. The resulting total is divided into total operating expenditure of the library to produce the appropriate figure. — Vingt cinq p. 100 des inscriptions à temps partiel aux cours universitaires sont comptées comme inscriptions à plein temps par étudiant et ajoutées à ces dernières, sauf dans le cas de *Sir George Williams University* où 40 p. 100 des inscriptions sont utilisées. Au moyen du total qui en résulte, on divise les dépenses globales des bibliothèques pour obtenir le chiffre concernant chaque bibliothèque.

² 1965-66.

³ 1963-64.

⁴ Includes between 600-700 full-time teaching staff, administrative staff and all university employees. — Comprend de 600 à 700 enseignants à plein temps, les cadres administratifs et les employés de l'université.

Note: Data on Erindale College and Scarborough College are not included in this table since they did not enrol students during 1966-67. — **Nota:** Les données de *Erindale College* et du *Scarborough College* ne sont pas comprises dans le présent tableau vu que ces institutions n'ont pas inscrit d'étudiants au cours de 1966-67.

SECTION IV**Centralized School Libraries****General Comments**

Again this year forms were distributed and collected by officials of provincial departments of education from public schools having centralized libraries. Beginning in 1963-64 the survey was not limited to school boards in centres of 10,000 population and over, as was the case in earlier surveys.

Levels of Schools with Centralized Libraries

The 3,271 centralized libraries were distributed as follows: 23.8 p.c. were in secondary schools, 7.0 p.c. in intermediate or junior high schools, 17.0 p.c. in elementary-secondary schools and 52.2 p.c. in elementary schools.

Centralized libraries were found in 96.7 p.c. of the secondary schools, 85.4 p.c. of the intermediate or junior high schools, 66.9 p.c. of the elementary-secondary schools and 36.6 p.c. of the elementary schools.

The proportion of pupils served by centralized libraries in secondary schools was 99.1 p.c., in intermediate or junior high schools, 92.8 p.c., in elementary-secondary schools, 71.8 p.c., and in elementary schools, 51.4 p.c.

Stock

At the request of the Canadian Association of School Librarians, the stock of books, periodicals and pamphlets was not totalled in this report, and bookstock alone was used as a measurement of resources, rather than total stock, as in earlier surveys. The total number of books in all the libraries reporting in 1966-67 was 12,512,605 compared with 9,998,900 in 1965-66. The number of books per student served was 5.5 compared with 5.2 in 1965-66.

In the elementary schools the bookstock averaged 5.7 per pupil served, in elementary-secondary schools 6.2 volumes, in intermediate or junior high schools 5.6 volumes and in secondary schools 6.1 volumes per pupil.

Finance

Information on payments for school library materials was supplied for school libraries representing 96.7 p.c. of the total enrolment served by centralized school libraries.

SECTION IV**Bibliothèques scolaires centralisées****Remarques générales**

Cette année encore, ce sont les fonctionnaires des ministères provinciaux de l'Éducation qui ont distribué les questionnaires aux bibliothèques centralisées des écoles publiques et les ont recueillis. Depuis 1963-64 l'enquête ne se limite pas aux commissions scolaires des villes de 10,000 habitants ou plus, comme c'était le cas antérieurement.

Niveaux des écoles dotées de bibliothèques centralisées

La répartition des 3,271 bibliothèques centralisées était la suivante: 23.8 p. 100 dans les écoles secondaires, 7.0 p. 100 dans les écoles intermédiaires ou moyennes, 17.0 p. 100 dans les écoles élémentaires-secondaires et 52.2 p. 100 dans les écoles élémentaires.

La proportion d'écoles possédant une bibliothèque centralisée est la suivante: écoles secondaires, 96.7 p. 100; écoles intermédiaires ou moyennes, 85.4 p. 100; écoles élémentaires-secondaires, 66.9 p. 100 et écoles élémentaires, 36.6 p. 100.

La proportion d'élèves desservis par ces bibliothèques était de 99.1 p. 100 pour les écoles secondaires, de 92.8 p. 100 pour les écoles intermédiaires ou moyennes, de 71.8 p. 100 pour les écoles élémentaires-secondaires et de 51.4 p. 100 pour les écoles élémentaires.

Fonds

Afin de satisfaire à la demande de l'Association canadienne des bibliothèques scolaires, le fonds global de livres, de périodiques et de brochures n'est pas donné dans le présent rapport. La mesure des ressources a donc été calculée d'après le seul fonds de livres et non d'après le fonds global comme aux autres enquêtes. En 1966-67, le nombre total de livres de l'ensemble des bibliothèques déclarantes était de 12,512,605 contre 9,998,900 en 1965-66 et le nombre de livres par élève, de 5.5 contre 5.2.

Le nombre de livres par élève était de 5.7 pour les écoles élémentaires, 6.2 pour les écoles élémentaires-secondaires, 5.6 pour les écoles intermédiaires ou moyennes et 6.1 pour les écoles secondaires.

Finances

Les renseignements sur les dépenses en matériel ont été fournis par un nombre de bibliothèques scolaires représentant 96.7 p. 100 de l'effectif total inscrit desservi par les bibliothèques centralisées.

Payments per pupil served at all levels ranged from \$0.76 to \$5.52 with an overall average of \$3.90 for all those reporting compared with \$3.46 in 1965-66.

In the elementary schools payments per pupils served averaged \$4.53, in the elementary-secondary school group \$3.80, in the intermediate or junior high schools \$4.62 and in the secondary schools \$5.27.

La dépense par élève aux différents niveaux scolaires variait entre \$0.76 et \$5.52 et pour l'ensemble, la moyenne était de \$3.90 contre \$3.46 en 1965-66.

La dépense moyenne était de \$4.53 par élève pour les écoles élémentaires, de \$3.80 pour les écoles élémentaires-secondaires, de \$4.62 pour les écoles intermédiaires ou moyennes et de \$5.27 pour les écoles secondaires.

SECTION V

Library School Graduates, 1968

General Comments

Of the 388 students graduating with B.L.S. degrees and 64 graduating with M.L.S. degrees in 1968, only 305 and 35, respectively, reported to this survey.

Information on the graduates by personal characteristics, educational background, work experience, fields of study and destinations is tabulated for each school and by region.

Characteristics and Background

Of the reporting graduates, 235 entered library school with B.A. degrees, 37 with first degrees in other fields and 33 had advanced degrees. Modern languages, including English, was the major field of study for 42.6 p.c. of the graduates while 17.4 p.c. specialized in history and 12.5 p.c. in science. In addition, 102 have taken additional training such as teacher training, theology, medicine, social work, engineering and business.

Previous work experience was reported by 216 of the graduates, and 95 of these had worked for two years or longer. Over 39 p.c. were employed by public libraries, 22.7 p.c. by university libraries and 25.9 p.c. by school boards.

Destinations

University libraries continued to attract the largest portion of graduates as 103 or 40.2 p.c. found employment there. Another 63 secured positions in public libraries, 47 in school libraries and 43 in special libraries.

The median salary of graduates employed in public libraries was \$6,775, in university libraries \$7,055, school libraries \$7,500, government libraries \$6,840 and other special libraries \$6,838.

Public Libraries

Table 36 is a summary of statistics of public libraries based on "Survey of Libraries Part I: Public Libraries, 1966".

SECTION V

Diplômés en bibliothéconomie, 1968

Remarques générales

En 1968, les écoles de bibliothéconomie ont décerné 388 baccalauréats et 64 maîtrises mais 305 bacheliers et 35 maîtres seulement ont répondu à l'enquête.

Les résultats classés par caractéristiques personnelles, qualifications, expérience du travail de bibliothèque, discipline et destination sont présentés dans un tableau par école et par région.

Caractéristiques et qualifications

Parmi les diplômés qui ont répondu à l'enquête, 235 sont entrés à l'école de bibliothéconomie avec un baccalauréat, 37 avec un premier grade en d'autres disciplines et 33 avec un grade supérieur. Pour 42.6 p. 100 d'entre eux, le sujet principal a été les langues modernes, y compris l'anglais, tandis que 17.4 p. 100 se sont spécialisés en histoire et 12.5 p. 100 en sciences. En outre, 102 ont suivi des cours de pédagogie, de théologie, de médecine, de sciences sociales, de génie et de sciences commerciales.

Deux cent seize diplômés dont 95 ont travaillé dans une bibliothèque pendant deux ans et plus déclarent posséder de l'expérience. Plus de 39 p. 100 travaillaient dans des bibliothèques publiques, 22.7 p. 100 dans des bibliothèques universitaires et 25.9 p. 100 étaient employés dans des commissions scolaires.

Destination

Ce sont les bibliothèques universitaires qui ont encore attiré la majorité des diplômés. En effet, 103 diplômés (40.2 p. 100) y ont trouvé un emploi, contre 63 dans les bibliothèques publiques, 47 dans les bibliothèques scolaires et 43 dans les bibliothèques spéciales.

Le salaire médian des diplômés était de \$6,775 dans les bibliothèques publiques, de \$7,055 dans les bibliothèques universitaires, de \$7,500 dans les bibliothèques scolaires, de \$6,840 dans les bibliothèques gouvernementales et de \$6,838 dans les autres bibliothèques spécialisées.

Bibliothèques publiques

Le Tableau 36 résume la statistique des bibliothèques publiques qui se trouve dans "Relevé des bibliothèques, Partie I: Bibliothèques publiques, 1966".
